**Major Activities:** We are continuing to install: Ceiling tile, quartz flooring, finish paint, case work, site work, interior glazing, tile work and fencing. The turn lane and adjacent drive are complete and now open.

The team is aware of the softball parking availability concerns and has cleaned up the area, removed conexs that could go and consolidated building materials. Queens Faculty/ Softball parking lot has 139 spaces... there is a direct entrance to the softball field from this lot. The front of school visitor lot holds 20 for a total of 159 but there is a plethora of parallel parking opportunity if need be. It appears the existing softball asphalt lot held approximately 140 vehicles... with potential grass overflow parking of 90. 70 of which are still there but the new intent will be for bus parking when necessary.

#### Project Notes: *Major Activities:*

Aquatic Center-Work is proceeding as we have now completed the concrete around the pool and the tile around the edges and interior. We have started work on cabling and the light fixture that go near the ceiling around the Pool. Progress is also being made on all interior work including dressing rooms, office, entry vestibule, coaches' offices and plumbing for the pool. The roof is 99% complete. Stadium, Phillips Gym, Hall of Fame, and Field House -We are working on close out items for substantial completion of these two projects. Sidewalks have been poured on Dabney and Burke.

#### Information Item: Construction Contract Breakdown

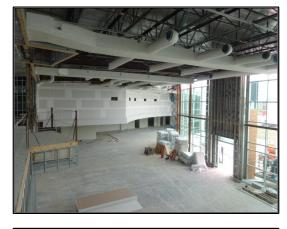

These cost are included in the CTE HS Project Budget on the Cost Summary page of this report. We have broken the cost out for tracking purposes as it was bid separately.

# Project Notes:

### Major Activities:

The building envelope is about 90% complete. The building will be dried in and lockable by the end of February. The interior partitions are being covered with sheet rock. The overall construction is 65% complete.

#### Project Notes: *Major Activities:*

The Rayburn Gym flooring is proceeding since we were finally able to get the conditions right for installation. The flooring has been nailed down and sanded. The next steps are sealer and paint which is about a two week process. Flooring in other parts of the gym is also being prepped for Epoxy and VCT tile. At South Houston flooring has been stalled due to the wood being too dry. We are close to meeting the specification required so I expect things to start happening within a few days.

Major Activities:

There are plenty of ongoing activities: Wall and ceiling rough-ins for MEP, underground electricity, drywall, damp proofing, CMU, face brick, stone, and Single-ply membrane roofing.

# Key Issues:

Weather delays.

The team is currently coordinating with the city to rebuild Magnolia Street. This is a city funded project.

#### Project Notes: Major Activities:

The Final Plat is being reviewed and approved by the City of Pasadena. They have release the final building Permit to the General Contractor. Currently the Insulating Concrete roof deck is at 70%. Interior CMU is being installed. All Areas have steel up however Area A still needs to be detailed. Exterior metal studs and sheathing is around 90% in Areas B, C, and D, and about 50% in Area E. Interior Metal studs have been installed in all areas except A and parts of C. The Centerpoint Transformer pad has been poured and the switchgear secondary's are installed. Exterior Concrete Columns are being formed and poured this week. The large parking lot along West Avenue has been poured. Electrician is installing j-boxes and conduit, and the ductwork is being installed in all areas, except A. Duct testing shall begin next week. Brick will begin next week. Working with the Library Furniture supplier and waiting on their quote to compare it to the current amount for Library FF&E. Working with School Specialties on FF&E items for school office and classroom furniture. Key Issues:

Major Activities:

Things are moving along at all three of the new middle school gyms. De Zavala has all the outer walls constructed and bar joist and steel will start shortly. The walls are going up at Shaw and we also have steel on site as soon as the walls are completed. At Schneider we are preparing to start the block and I anticipate it won't take long to catch up with the others.

#### Key Issues:

Schneider MS

Major Activities:

Detention pond is nearing completion. The additional spoils removed from the pond have been distributed to the piece of property along Spencer Highway and are graded so most of the storm runoff flows from Spencer Hwy. into our new detention pond. The building pad is complete, concrete foundation piers have been drilled and poured. Pier caps have been poured. Currently working on concrete grade beams. The contractor is coordinating with Centerpoint Energy for permanent power which should be available for temporary power by the end of next month. Currently the contractor is using an generator. All underground utilities outside the building pad have been installed and includes sanitary sewer, storm sewer, domestic and fire water main, electrical underground for parking lot lights. Parking light standards have been installed.

#### Key Issues:

We have received a proposal from Hawkins Lease Service to remove the 6" abandoned pipeline that will go to the February Board Meeting for approval.

### Major Activities:

The soil building pad is 100% complete. The excavation of the Detention Pond is 70% complete. Test holes are being drilled to get a feel of what soil conditions we are dealing with. The pier locations will be laid out and drilling to start this week. We will continue with the site cut/ fill/ grade and storm installations.

#### Key Issues:

Morganti is in the process of restructuring their Houston office as well as their MS #11 team. We are working closely with them to ensure we get a proper team and game plan to regain lost time.
